

Moving to Senior Living?

We Will Smooth Your Transition

where the future takes shape

Raleigh R. Lee

I helped my Mother move from her long-time home to independent living . . . assisted living . . . a nursing home . . . hospice . . . and to her final resting place on a scenic bluff in Savannah. That experience inspired me to become a Seniors Real Estate Specialist®. I've guided hundreds of older folks, like me, through successful and happy transitions to a better life.

Together we make a powerful team to help you through your journey. You've earned the right to have the combined expertise of a Certified Senior Advisor and Seniors Real Estate Specialist® to help you make the best decisions for this time in your life. This is our mission, and we look forward to working with you.

"They had a very honest and professional approach. We are very happy with what we got from Raleigh's team. They showed up when they said they would. They did the things they said they were going to do. We got the price we were looking for. We are very happy with the service. They were the very best realtors that we worked with. They were very helpful with the staging process, contacts for estate sales and, of course, the listing price. We definitely recommend the Crossing a Bridge team for your realtor!"

What is an SRES®?

A Seniors Real Estate Specialist® (SRES®) is a REALTOR® . . .
